BRIEF HISTORY ON THE COMPANY AND ITS ACTIVITIES

InstaForex is an international Forex broker founded in 2007 by InstaForex Group. Right after its registration, the company signed a contract with MetaQuotes Software Corp., the leading-edge maker of online trading software. Also the broker entered into a contract on cooperation with the largest news suppliers (eSignal, Reuters and others).

During the first months InstaForex reached agreements with major international contractors providing access to the foreign exchange market.

Thus began the story of InstaForex in the brokerage services industry.

From the very beginning, the company has stuck to the principle of providing its customers with high-grade services regardless of market conditions.

InstaForex team are the professionals highly skilled in financial consulting, legal backing and dealing operations. The number of InstaForex employees is constantly growing as we gladly recruit young and talented specialists experienced in providing online trading services.

The trading terms of our company are always kept up with the latest trends in the brokerage industry. InstaForex is aimed at meeting a challenge of the modern quality standards both in its services and trading terms. There are currently more than a million of customers who have appreciated the top quality offered by the broker!

Today InstaForex is an international broker providing access to financial markets worldwide. It offers trading on Forex through ECN, derivatives and commodities trading. Over 265 InstaForex offices were opened in different parts of the world!

InstaForex has been a pioneer in development and introduction of various up-to-date technologies and services. For example, InstaForex customers were the first traders ever to transfer money from trading accounts to VISA cards and to use a co-brand InstaForex MasterCard to manage their accounts. Over the recent years, InstaForex was also among the first brokers to roll out PAMM accounts; ForexCopy, the system for copying successful trades; binary options, etc.

In 2010 the company was the first to give its clients an opportunity to open live accounts in MetaTrader 5 trading platform. Finally, it is the only broker that launched 8 MetaTrader servers.

The full range of options for successful investment in global financial markets, convenient trading terms and huge client base – all this gives grounds for calling InstaForex one of the market leaders. Moreover, the broker's achievements have been repeatedly confirmed by a number of prestigious awards. The company was recognized as the Best Broker in Asia by the World Finance Awards (2009, 2010, and 2011); Best Retail Broker by the European CEO

Awards and Jordan Expo (2011); Best Broker in Asia by ShowFx Asia (2009, 2010, and 2011); Best Retail Forex Broker & Best Broker in Asia 2012 by IAIR Awards; and the Best Broker in Asia 2012 by International Investment and Finance Expo held in China.

We work hard to make sure we provide our customers with the best trading terms & the widest range of services. However, we do not stop here. We ensure that our clients get pleasant bonuses & improve their trading strategies with no risks. That is why InstaForex team launched a series of contests and campaigns in 2011 with the total prize pool of almost one million U.S. dollars. Three of our clients were lucky to win luxurious cars: Hummer H3, Lotus Elise & Lotus Evora! Currently, we carry out the Best Trading, Luxury Driving & Sports Lotus is Your Trade Bonus campaigns with Porsche Cayenne & Lotus Evora as the main prizes. InstaForex welcomes commitment to high achievements and active lifestyle. In 2010 the company became the title sponsor of Tornado, a well-known Ukrainian team in the ultimate fighting world, since then called Tornado-InstaForex. In 2011 there was one of the greatest events: InstaForex got the joint project with the Tatra rally team off the ground that resulted in a new name in the truck racing world InstaForex Loprais Team. The guys have already celebrated their sensational victory in the Silk Way Rally in July 2011! Also in 2011 the famous basketball player Ilona Korstin became the face of InstaForex. In 2012 Hollywood actor & UFC champion Oleg Taktarov & highly ranked tennis player Janko Tipsarević joined the broker. In 2013 Viktoria Azarenka, world No. 1 female tennis player & Olympic tennis champion, became the new face of the company. In addition, InstaForex became the sponsor of Marussia F1 Team, the regular participant of the prestigious FIA Formula One World Championship.

InstaForex is a fast growing company that opens new horizons for its clients and partners. We hope that you will appreciate the quality of the services we provide. In order to get more information about our company and our advantages, Visit www.instafxng.com

~ BONUSES AND CONTEST OFFERED BY THE COMPANY

The only condition: you cannot request both types of the bonuses for same trading account.

~ DR FOREX

DISCUSSION OF FOREX TOPICS

“About the Forex Market”
by Emeka John Igwe

Forex Market (FX market) is an interbank currency exchange market. The term Forex is used for a currency interchange only, not for denoting all types of currency operations.

The currency market operations can be trading, speculative, hedging or regulatory. Thanks to fast development of a global net, Forex market offers real opportunities for every person of any age. Only Internet access and a trading platform are required. About Forex In August 1971 the President of the USA Richard Nixon refrained from free convertibility of the US dollar into gold, and in December 1971 the Smithsonian Agreement was signed in Washington, according to which a 1% currency rate fluctuation versus the US dollar was replaced with 4.5% (for 9% of currency pairs which do not comprise the US dollar). This put an end to the system of the fixed currency rates.

These reforms were targeted to make the policy of gold prices more liberal. Before the changes the currency rates were stable due to the gold standard, however, after that the floating gold prices led to an inevitable wobble of currency rates. This event gave birth to a new activity - currency trade, when the exchange rate became dependent not on a gold equivalent of a currency, but on the market supply

CONTEST

InstaForex team launched a series of contests. This is an event in which people compete for supremacy in trading activity. To mention few, some of the contests are: Sport Style: Porsche Cayman from InstaForex, Evora Lotus is Your Trade Bonus, Lucky Trader, InstaForex Great Race 2014 and many more. Visit www.instafxng.com for more details

and demand in this currency.

In January, 1976 during the meeting of the IMF countries ministers in Kingston a new agreement on the international currency system was signed in the form of amendments to the IMF Articles of Agreement. A number of countries refused from pegging the national currencies to the US dollar or to gold. Nonetheless, only in 1978 this was permitted officially by the International Monetary Fund. From that moment on, the floating currency rates have become a principle of the currency exchange. The new currency system was not based on determining a purchasing capacity of money on the ground of its gold equivalent value.

The countries money - the treaty participants - stopped to have the official gold value. The exchanges started to be carried out in a free currency market at flexible prices. Establishment of a floating rates system had led to that central banks received a right to affect the currency rates and exert influence on economic situation in the country by applying certain measures. Importers, exporters and bank institutions supporting them became regular participants of the currency market as the liquidity of currency rates now can be reflected in financial results of their work either

positively or negatively. The Daily Turnover on Forex Market: There are no accurate figures, as this market is over-the-counter, & there is no compulsory registration & publication of operations data. In 2005-2006 the daily Forex market turnover was changing by different estimations within the range of 2-4 trillion US dollars. A part of this turnover is provided by a marginal trading which allows conducting contracts for the amounts exceeding the real monetary funds of parties.

Regardless of the character & the targets of operations, a huge turnover guarantees high Forex market liquidity. Getting profit on Forex Market: There are plenty of adverts in the Internet about the ways to collect profit on Forex market, however, one should take into account that this work is not a full-time occupation and has no steady salary. Only you can determine your wage, depending on your loss or gain.

This business is about starting capital & inevitable risks. Marginal trade on Forex has a number of peculiarities: there is no career ladder, no huge initial capital, the operations are similar and do not require constant education, potential yield rate or loss risks are high.

These characteristic features make the marginal trade attractive for beginning the stock exchange activity with a small start-up budget. You can familiarize yourself with market trading on demo accounts. For that purpose you only need to choose a broker that interests you, download a trading platform and register a demo account. Every business can bring either yield or loss. To make profits exceed losses you have to study the FX market and the nuances of trade. As soon as you are able to observe the rules of currency market, you will become a successful trader.

CONFERENCE GIST

ABOUT THE LAST CONFERENCE

“The results of the annual business event by Instaforex in Lagos”

On November 17, 2013 luxurious Sheraton hotel in Lagos hosted the scheduled annual business conference. The event was devoted to vital questions of operating on the Forex Market & using cutting edge technologies in trading. Forex Conference arranged by InstaForex gathered a record number of guests. Thus, over 250 people including both novice and professional traders were registered for the event.

6 professional speakers, Azeez Mustapha, Mr. John Igwe, Ifeanyi Uche, Pst. Praise Judah, Joseph A. Babalola & Tope Oluwayemi took the floor in front of the audience. Their lectures dealt with both important aspects of the current trading on the financial market and personal experience of operating on Forex. The experts' speeches aroused a vivid interest from the audience; guests asked the speakers all questions of their interest; besides, they were actively involved in a discussion. Arduous talks did not cease during the business lunch arranged by InstaForex as a part of the conference.

Apart from the opportunity to discuss various aspects of currency trading, everyone was able to learn about the services provided by InstaForex. Moreover, each participant took an advantage to get to know the company's representatives who gave professional advice to anyone during the whole event.

Traditionally, the company raffled off several mobile devices, iPhone4, Samsung Galaxy Tab (10.1) & Samsung Mini Laptop among guests. Besides, several guests won trading accounts as a result of a prize draw. All visitors of the business event, who were not company's clients, had a possibility to open a bonus account with InstaForex. The centrepiece of the recreation program was handing over the key of a brand new city car Kia Picanto to the winner of campaign Kia Picanto for Nigerian Trader. So, Olatimilehin Bamidele Israel has become the lucky owner of the classy and speedy Kia Picanto.

The Forex Conference in Lagos was widely discussed among the whole community of traders.

The business conference in Lagos held by InstaForex contributed to sharing experience, raising investment literacy, and establishing business contacts. Participants gave lots of favorable comments on the event. Once again, this proved the demand in such face-to-face meetings.

~ CSR CORNER CORPORATE SOCIAL RESPONSIBILITY

As part of our plans of giving back to the society, the corporate social responsibility (CSR) department or committee was set up in order to balance our operations as a reliable establishment that we are. A couple of places have been visited since this committee was created but we are going to give you a random of our activities for the previous year (2013) with pictures as tangible evidence of our achievements so far.

In 2013, the CSR committee on behalf of InstaForex Nigeria visited the following places where certain donations were made:

- 1. Charitas Orphanage Home, Abaranje Ikotun.
- 2. Kirikiri Maximum Prisons
- 3. Hope Foundation For Disabled, Ikotun and also Constant visit to Compassionate Orphanage Home, Isheri Olofin, Idowu Egba B/stop.

2014 IN VIEW

There are plans for the year 2014 as it promises to be uniquely different from the previous year. More details would be given for latter editions.
